DETAILED ACTION

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 1, it is unclear and confusing what is meant by "fluorochemical get material having a penetration of 30 to 60 as measured". 30 to 60 what? What are the units for this measurement? What unit is the penetration being measured in? It is unclear and confusing what the JIS K2220 value is. This is a standard that does not remain constant. What is the value of the this standard?. Please provide documentation for this standard.

Art Unit: 2826

As to claim 3, it is unclear and confusing what is meant by “fluorochemical rubber material having a hardness of 5 to 35” and “fluorochemical get material having a penetration of 30 to 60 as measured”. 5 to 35 and 30 to 60 what? What are the units for this measurement? What unit is the penetration being measured in? It is unclear and confusing what the JIS K6253 and JIS K2220 value is. These are standards that do not remain constant. What is the value of the these standards? Please provide documentation for these standards.

As to claims 2 and 4-9, any of claims 2 and 4-9 not specifically addressed above are being rejected as being dependent upon a rejected base claim.
